"Hi, my name's Max Wright. I'm an engineer, and I live on the Scott Base in the Antarctic. It's very cold here, of course. At night the temperature can be -50 °C, but in the day it's only -20 °C!

Twelve people live here, and we're all from New Zealand. At the base there's a restaurant, a TV room, a small store, and six bedrooms – two people sleep in each room. Most of our food comes from New Zealand, and we also eat fish from the sea.

We work from Monday to Friday, and sometimes Saturdays too. Every morning I go swimming in the sea (which is only 1 °C!), and in my free time I play volleyball or watch videos. I also love watching the animals and birds, especially the penguins – there are thousands of them here.

Yes, it's cold at Scott Base, but it's also a very beautiful place to live. I love it here."

The Kennedys

a) Elisten to and read the story of the Kennedy family.

The Kennedys – America's First Family

John F. Kennedy is probably the most famous president in American history, but the story of the Kennedy family is not a happy one.

John was born in Boston, US, in 1917. The Kennedys were a big family, and John had five sisters and three brothers. His father, Joseph Kennedy, was a businessman, and his mother, Rose, was the daughter of a politician.

After college John worked as a journalist, then became a politician in 1946. But this was an unhappy time for

the Kennedy family – John's brother Joe died in World War II, and four years later his sister Kathleen died in a plane crash.

John became a senator* in 1952, the same year he met his wife, Jacqueline Bouvier. They got married in 1953 and had three children – but their third child, Patrick, died two days after he was born.

In 1961, John F. Kennedy became president, and he was very popular with the American people. He was assassinated† in Dallas, Texas, in November 1963, and his brother, Bobby, was also assassinated five years later.

The Kennedys are a famous family, but their story is a very sad one.

* a senator = a member of the American Senate

† assassinated = killed for political reasons

Vacation destinations

1 1 a) 🖃 Listen to and read these descriptions of two famous cities.

Vienna, the capital of Austria, is a great place for a vacation. You can visit famous buildings like the State Opera House, the Schonbrunn Palace, and St. Stephen's Cathedral, which is over 850 years old. Or you can go shopping along Karntner Strasse and enjoy Vienna's coffee and cake shops, restaurants, and street musicians. You can also travel along the River Danube by boat or go for a walk in the Rathauspark, one of many beautiful parks in the city. Vienna is also the home of classical music. Beethoven, Mozart, and Schubert all lived here, and there are performances of their symphonies every evening. So come and stay for a weekend or a month – there's always lots to do in Vienna!

The Turkish city of Istanbul is a wonderful place to visit. In the old part of the city there are lots of interesting buildings for tourists to see, like the 500-year-old Topkapi Palace. There are also two beautiful mosques very near the Palace: the Sancta Sophia and the famous Blue Mosque. Most visitors to Istanbul go shopping in the city's biggest market, called the "Grand Bazaar." There are more than four thousand stores there, and you can buy books, food, clothes, flowers, and rugs. The food in Istanbul is great, and the city has some fantastic fish restaurants. So come and visit Istanbul — the city where Asia meets Europe.

AIBO the electronic pet

10 a) Read and listen to this text about AIBO.

www.irLanguage.com

AIBO – the electronic pet

The Japanese company Sony sold the first 3,000 AIBOs on the Internet in only 20 minutes. But what exactly is an AIBO, and why do people love them so much? An AIBO is a robot dog about 28 centimeters long, and it can do lots of amazing things. For example, it can walk, run, play with a ball, be happy or sad just like a real dog! It can also dance, sing songs, see colors and take photographs like a camera! A new (or "baby") AIBO can't see or hear, but it can understand about 40 words and phrases like How old are you?, Good boy, and Don't do that. Say its name and it answers you, say Goodnight and it goes to sleep. When it becomes older, the AIBO

learns more words, and soon it can talk to you too. And when it's an "adult" it can check your emails and read them to you! These robot pets are very popular in Japan and the US, but they aren't cheap. Each AIBO is about \$2,500 – so maybe a real dog is better!

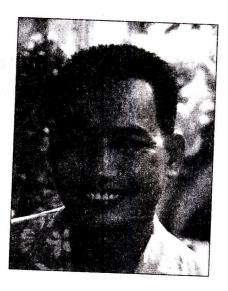

b)	Are these sentences true (T) or false (F)?	
1	It's from the US.	<i>F</i>
2	It's very big.	
3	It can take photographs.	
4	New AIBOs can see and hear very well.	
5	It can understand things people say to it.	
6	It can check your email.	
7	It's very expensive.

AMERICAN CUTTINGEDCE

Everything you expect from a world-class course ... and more

American Cutting Edge is a multilevel general English course for adults and young adults. Providing a solid foundation in grammar, vocabulary, and skills, American Cutting Edge Level 1 is for beginners or those who need to brush up on the basics before moving on to Level 2.

American Cutting Edge Workbook consolidates and extends essential language covered in the Students' Book.

- Vocabulary and Grammar sections review areas covered in the Students' Book
- Improve your writing and Listen and read sections develop skills
- Pronunciation and Spelling sections improve student confidence in typical problem areas

The Workbook is accompanied by an optional Workbook Cassette/Audio CD with exercises on grammar and pronunciation.
