Animals with Talent

Can animals think? Are they artistic? Are they musical? Here are two stories about animals with special talents:

In Thailand, there's a group of very interesting elephants. These elephants are good at drawing. They can also paint. Their pictures are beautiful and interesting.

People look at the pictures and say, "These elephants are really artistic and smart." You can see the pictures in special stores and on the Internet.

Nora is a beautiful gray cat, but she isn't a typical cat. She can play the piano! Nora's owner, Betsy, is a music teacher. There are two pianos in Betsy's living room. Nora plays both. Nora likes the pianos a lot. She likes to play the piano with Betsy's students. Her music is very nice.

Nora is friendly – and famous, too. There's a video about Nora on the Internet, and she has a Web site. There are articles about Nora in newspapers, too.

1 Read the e-mail quickly. How many bats are in one place in Texas?

www.batexhibit.gc/

Cool Bat Exhibit

Hi, Dora!

Today we're going to see the bat exhibit. Bats are fascinating animals. Let me tell you some amazing things about them.

Bats usually sleep in the daytime. But this exhibit has special red lights. The bats can't see these lights, and they think it's night. It makes them fly around the exhibit.

Bats can fly, but they aren't birds. They have short brown hair on their bodies. Some people think that bats can't see, but this isn't true. Bats can see very well and they hear very well, too. Bats live in large groups. In the state of Texas, in the United States, there's one place with more than 20 million bats.

Bats aren't usually dangerous for people. They actually help people. They eat a lot of bugs. The bats in Texas can eat 500,000 pounds of bugs in one night! Bats are a very good bug repellent.

Your friend,
Joe

1 Read the article quickly. Is the weather around the world warmer now?

Glacier National Park

Glacier National Park in the state of Montana in the United States is a very beautiful place. The park has many mountains, forests, and rivers. There are 26 glaciers in the park. A glacier is a very big area of ice. Some people say a glacier is like a river of ice.

There are a lot of animals in the park, like bears, wolves, and wild cats. But there aren't many snakes. They don't like the cold weather.

Visitors to the park need clothes for all kinds of weather, even in July and August. It sometimes snows in August! In one day, it can be very warm in the morning or afternoon and then very cold at night. But the park has a problem with the weather.

The weather around the world is warmer now. Why is this a problem? The glaciers are melting and some of the plants and animals are dying. Does Glacier National Park need a new name? Not now, but maybe some day!
